

Initial Meeting: Tiny House Movement

Creative Director: Natalie Dinh

Designer: Jaxton Tregembo

- We met in person.
- Should the interior pages be one scrolling page? How should they be organized?
 - Have a home page with separate sub-pages for each topic of the outline.
Tease the sections on the home page
 - Should include buttons to guide to sub-pages
 - Keep the home page easy to skim
- What types of images to include, besides tiny homes
 - Wood, materials for houses, forests, abstract textures of nature
- How much information should be on the front page? What's the CTA?
 - The introduction should be central to the home page
 - Other section details should be minimal
 - The main focus of the website is the CTA—to partake in local tiny house projects and create accessible homes
